

TAGQUEST

EZ SEND

EZSEND.TAGQUEST.COM

Email marketing just got a whole lot easier...

TAGQUEST EZSEND

ezsend.tagquest.com

The TagQuest EZ Send uses state of the art software architecture to allow direct connectivity with core account features via all programming languages - from PHP, .Net, Perl, to Ruby on Rails and more.

- Track campaign analytics via in-house applications
- Remotely deploy email communications via an external Content Management System
- Automate email subscription and removal processes
- Incorporate TagQuest EZ Send functionality into one single login - bundle, re-sell core TagQuest EZ Send features through one's own Graphical User Interface.
- Export profile, subscriber or analytic data
